A REPORT ON Plantation on the occasion of Bio Fuel Day

Date of the Event: 06/08/2021

Time: 11.30 am to 12.30 pm

Biofuel Day highlights the significance of renewable energy derived from biological sources. The day commemorates the first successful experiment by Sir Rudolf Diesel, who ran an engine on peanut oil in 1893, showcasing the potential of biofuels. Educational institutions and organizations mark the occasion with seminars, workshops, and awareness campaigns. Participants emphasize the environmental benefits of biofuels, such as reduced greenhouse gas emissions and decreased reliance on fossil fuels. The event also encourages innovation and investment in sustainable energy. Biofuel Day serves as a reminder of the critical role alternative fuels play in combating climate change and fostering energy security.

On this occasion all the faculties have done the plantation in the college campus.

College NSS officer Prof. Vishal Danawade organized the event.

Total number of students participated are 50

A REPORT ON
Swatch Bharat Abhiyan
“Campus Cleaning and Tree plantation at Jainapur Govt School”

Date of the Event: 10/12/2021

Time: 10.00 am to 03.00 pm

As part of the NSS activity, students cleaned the entire school and surrounding places. Cleaning by students is an initiative that encourages young people to take responsibility for maintaining a clean and healthy environment within their educational institutions. This practice not only keeps the campus tidy but also fosters a sense of ownership, discipline, and environmental awareness among students. Regular campus cleaning activities might include picking up litter, sweeping walkways, cleaning classrooms, maintaining restrooms, and tending to outdoor spaces like gardens or sports fields.

By actively participating in campus cleaning, students learn valuable lessons in teamwork, as they often work together in groups to cover different areas of the campus. It also instills habits of cleanliness and respect for shared spaces, promoting a positive school culture. Moreover, students gain a deeper understanding of the importance of environmental sustainability, especially when the cleaning involves recycling or waste segregation efforts

College NSS officer Prof. Vishal Danavade organized the event.

A REPORT ON Celebration of Republic Day

Date of the Event: 26/01/2022

Time: 08.30 am to 09.30 am

Celebrated 73rd Republic Day on 26th Jan, 2022. The Chief Guest, Mr. Suraj Netaji Chavan, Havaldar, Indian Army motivated our students and Brhamakumari Shantaji. Principal Dr. Prasad B. Rampure presided over the function.

Republic Day of India, celebrated on January 26th every year, marks the day when the Constitution of India came into effect in 1950, transforming India into a republic. This day holds great significance as it signifies the transition of India from a British Dominion to a sovereign republic, with its own independent Constitution.

The Constitution of India, adopted by the Constituent Assembly on November 26, 1949, came into force on January 26, 1950, replacing the Government of India Act 1935 as the governing document. The date of January 26 was chosen to honor the declaration of Purna Swaraj (complete independence) made by the Indian National Congress in 1930, further strengthening the importance of self-rule and national pride.

On this occasion HODs and faculties of all departments were present.

College NSS officer Prof. Vishal Danawade organized the event.

A REPORT ON
Swatch Bharat Abhiyan
“Temple Cleaning at Aadi and Stavanidhi”

Date of the Event: 19/01/2022

Time: 10.00 am to 03.00 pm

As part of the NSS activity, students cleaned the entire temple and surrounding places of the temple. Temple cleaning is a sacred and time-honored practice observed in many cultures and religions worldwide. It involves the meticulous cleaning and maintenance of temples, shrines, and other places of worship to ensure their sanctity, purity, and spiritual vibrancy.

At its core, temple cleaning is not merely a physical task but a deeply symbolic and spiritual ritual. It is a way for devotees to express reverence and devotion to the divine, honoring the sacred space where they come to worship, meditate, and seek solace. By meticulously cleaning the temple premises, devotees demonstrate their respect for the divine presence believed to reside within.

Temple cleaning often involves a collective effort, bringing together members of the religious community to work harmoniously towards a common goal. This communal aspect fosters a sense of unity, solidarity, and shared responsibility among worshippers, strengthening the bonds of fellowship and devotion.

A REPORT ON Covid-19 Vaccination Drive 1

Date of the Event: 06/11/2021

Time: 11.30 am to 1.30 pm

The NSS unit of KLE Engineering College, Chikkodi, in collaboration with the Health and Family Welfare Department and the Public Government Hospital, Chikkodi, organized a COVID vaccination program.

Inaugurating the event, **Dr. Prasad Rampure**, the principal of the college, remarked:

"Coronavirus has become a pandemic that is troubling the entire world. It has had a significant impact on every sector, including education. Due to the lockdown, schools, colleges, and universities have declared extended holidays, creating an atmosphere of anxiety among students and parents. During such challenging times, KLE Engineering College in Chikkodi has fulfilled its responsibilities effectively. Our college has been strictly following COVID protocols. Already, 90% of the students and faculty members have been vaccinated, and today, the remaining individuals are receiving their vaccines."

The event was attended by department heads and faculty members, including **Prof. Satish Bhojannavar**, **Prof. Kumar Chougala**, **Prof. Pradeep Hodlur**, **Prof. Basavaraj Choukimmath**, **Dr. R.K. Patil**, and **Prof. Sachin Mekkalaki**.

Over 200 students and staff members received their vaccinations during the program, which was coordinated by NSS Officer **Prof. Vishal Danawade**.

A REPORT ON Mask Distribution by Youth Red Cross KLECET

Date of the Event: 07/05/2022

Time: 10.00 am to 12.30 pm

As part of the NSS/YRCS activity, students have distributed the Mask for the peoples near the Temple. During the COVID-19 pandemic, the National Service Scheme (NSS) unit played a crucial role in supporting public health efforts by distributing masks to the community. Volunteers from the NSS unit worked diligently to ensure that masks reached vulnerable populations, including those in low-income areas, slums, and rural regions, where access to protective equipment was limited. The initiative aimed to prevent the spread of the virus by encouraging mask-wearing as a vital preventive measure. In addition to distribution, NSS volunteers also educated the public on proper mask usage and hygiene practices, contributing to the overall safety and well-being of the community.

College NSS officer Prof. Vishal Danawade organized the event.

A REPORT ON Param Veer – The Story of a Defender of the Nation" Program

Date of the Event: 30/03/2022

Time: 06.00 pm to 7.30 pm

A lecture program titled "**Param Veer – The Story of a Defender of the Nation**" was organized at the KLE Engineering College in Chikkodi in collaboration with the Yuva Brigade.

Speaking as the keynote resource person, **Sri Chakravarti Sulibele**, the founder and mentor of Yuva Brigade, stated:

"Every soldier who serves in the army is a true 'Param Veer.' Through the 'Story of a Defender of the Nation' initiative, the Yuva Brigade is paying tribute to the soldiers. Indian soldiers perform their duties even in the harshest conditions at the borders. Honoring those who serve in the armed forces is one of the most significant responsibilities we have. The abrogation of Article 370 has allowed the national flag to fly proudly in Kashmir, and we now witness an undivided India from Kashmir to Kanyakumari. In today's new India, we no longer hear stories of soldiers' sacrifices alone; instead, we hear tales of defeating insurgents and enemies."

Sri Mallikarjuna Mahalank, an NSG commando and the chief guest for the program, said:

"Serving in the army is a matter of pride. Tasks from my childhood, such as fetching water from the well and working in the fields, were immensely helpful during my army training. Today, even a soldier receives a good salary. During my service, we did not have such facilities, but now the army has adopted modern infrastructure

A REPORT ON Rally on Road Safety

Date of the Event: 01/11/2021

Time: 10.00 am to 12.30 pm

As part NSS activity, students have given the road safety awareness in chikodi. From our college campus to the central bus stand passing through some local areas. Our aim was to provide road safety information for road users to encourage safer road user behaviour among current and prospective road users. In India itself about eighty thousand people are killed in road crashes every year which is thirteen percent of the total fatality all over the world. Man behind the wheel plays an important role in most of the crashes. In most of the cases crashes occurs either due to carelessness or due to lack of road safety awareness of the road user. Hence, road safety education is as essential as any other basic skills of survival.

A REPORT ON Rally on Waste Management Program at Ankali

Date of the Event: 12/06/2021

Time: 10.00 am to 12.30 pm

As part of the All-India Council for Technical Education (AICTE) activity point program, we visited Ankali Village that is 15km away from our college campus for awareness on de developing & managing efficient garbage disposal system.

Disposal of garbage is a severe issue in rural areas. In rural areas, solid waste includes wastes from kitchens, gardens, cattle sheds, agriculture, and materials such as metal, paper, plastic, cloth, and so on. They are organic and inorganic materials with no remaining economic value to the owner produced by homes, commercial, and industrial establishments. Most household waste in rural areas is organic, with little inorganic material, and is non-toxic. Though solid waste generated in rural areas is predominantly organic and biodegradable, it is becoming a significant problem as the waste produced is not segregated at the source itself. This activity has been planned to achieve the following objectives
